

**Central City**  
**WILDCATS**

Dear Wildcat Families,

The school district is currently offering insurance to cover computers and iPads provided for student use by the district. No students or families are required to purchase this or any insurance. There is a policy that covers the MacBook Air computers that students in 5th - 12th grade use. There is a separate policy for iPads that the K - 4th grade students use.

**MacBook Air insurance (Grades 5-12)**

The premium on the insurance is \$67 per year, per computer. This insurance policy will cover all breaks and damage to the computer including full replacement. There is no deductible and the policy covers multiple incidents. The only damage not covered is intentional damage to the computer.

**iPad insurance (Grades K-4)**

The premium on the insurance is \$25 per year, per iPad. This insurance policy will cover all breaks and damage to the iPad including full replacement. There is no deductible and the policy covers multiple incidents. The only damage not covered is intentional damage to the iPad.

**Homeowners policy**

If you would like to add coverage to your homeowners policy, it is our understanding that some insurance providers offer that. You would need to confirm that with your insurance agent. Your agent will likely need to know the model of computer and or iPad that your student has. This is that information:

11/13 inch MacBook Air (128GB HD / 4GB) - \$779

iPad 8th Generation (32GB) - cost for total replacement - \$299

They will also likely need your serial number. The technology department can provide that to you.

**Process for purchasing school insurance**

Follow directions at this link to purchase insurance. The signup deadline is September 9th. Insurance is good for one calendar year. <https://gpo.worthavegroup.com/opt/centralcitycsd>
